Welcome to this beautiful updated Bellevue home located just east of Crossroads and south of Microsoft. This home has a bright and charming interior that has been meticulously maintained. The modern and fashionable amenities and design are eclipsed only by the beautiful, elegant backyard - perfect for entertaining guests or Summer BBQs. The backyard provides a sense of peace and tranquility rarely found in an urban setting - outdoor living at its best with a large wood deck, gorgeous flowers and landscaping.

The interior is highly functional with an open floor plan that includes a lovely kitchen with plenty of counter and cabinet space and windows to the backyard. Large skylights illuminate the living room and bathroom with copious amounts of natural light. Natural wood flooring was just refinished and is beautiful.

Additional features of this home include a newer natural gas furnace, two year old roof, attached one car garage, newer, high quality appliances, two sets of double doors leading to the backyard, new vinyl windows, and RV parking along the side of the house. The home is also a quick and easy five minute drive to freeways, shopping centers, schools, parks, a beach and the main Microsoft campus.

One year home warranty included!
